

Application Guide for Laboratory research and Internship Program at Shonan (LIPS) College of Bioresource Sciences, Nihon University

What is LIPS?

LIPS stands for Laboratory research and Internship Program at Shonan. College of Bioresource Sciences (BRS), Nihon University will provide the opportunity exclusively for Japanese Language and Japan Studies Program (JLSP) students to join cutting-edge research with our students under Professors' supervision as well as the internship in the University to be a bridge between Japan and your country.

The Campus of BRS is located at FUJISAWA City, Kanagawa Prefecture, about 50 km south-west of Tokyo and the area called SHONAN, the coast of Sagami Bay. The SHONAN area includes KAMAKURA, the ancient city of SAMURAI and famous for Big Buddha as well as ENOSHIMA, the symbol island of the area and a closest seaside resort to Tokyo.

BRS offers the courses related to Agricultural Studies including Veterinary Medicines and it has been seen as the one of the most active research institutions in Japan; on the citation index of Agricultural Studies Thomson Reuters ranked Nihon University 7th among Japanese universities and the Top among private universities. The size of campus reached over 60ha and there are Museum, Farm, Forests, Food Receiving Factory, Animal Medical Centers and Football Grounds etc.
